PACKED WITH FUN!

Kangaroos & Koalas

THE GAME OF UPS AND DOWNS

Reinforces GOOD behaviour ~ if they do RIGHT they go UP, if they do WRONG they go DOWN!

Game ONE
KANGAROOS & KOALAS®
The Aussie Game of UPS and DOWNS

Everyone loves the game of Snakes and Ladders... did you know this game dates back to the ancient Egyptians?

Well, Ken Howard has taken the world's most popular board game to a new level with his new characters. Two unique Australian characters: **Garoo**, a friendly and helpful wallaby and **Kolo**, a grumpy and impatient koala, show that good behaviour ALWAYS triumphs over bad.

Kangaroos & Koalas® is now in its ninth printing and a pilot for a TV cartoon series based on it is in production.

Kangaroos & Koalas® subtly shows children positive and negative traits of behaviour and basic learning skills. For example: Landing on 'Caution' moves player up to 'Safety'. Landing on 'Selfish' moves player back to 'Lonely'.

COMPENDIUM

Rules for 4 GAMES

Double-sided Playboard

Tokens / Playing Pieces

4 x JIGSAWS

COLOURING BOOK

Music/Story/Trivia CD

& more...

Game TWO
WHERE'S KOLO?
The Aussie Game of Hide & Seek.

As you race around the board you can help Garoo Kangaroo find her best friend Kolo Koala by looking underneath the special Gumnut tokens.

If you find a "Here's Kolo" token, you're on the way to winning.

You can now collect a piece of the Jigsaw! Be the first to complete your jigsaw and you'll become Garoo's favourite winner!

Don't forget - along the way Garoo gives some good advice on safety and the environment.

A search and find game, where colour, number and picture recognition are part of the fun!

Better still, 2 sets of rules mean more fun as players are able to play a simpler and quicker game where the Jigsaw pieces are not used.
